

GDP MD Consultancy Approach

Stage 1- Gap Analysis

Review the existing Integrated Quality Management System against GDP MD requirements.

Stage 2-GDP MD Training

Provide Understanding GDP MD Training

Stage 3- System Design and Documentation Development

Support on development of documentation to meet GDP MD requirements.

Stage 4-Implementation

- *Implementation of GDP MD for Medical devices*
- *Provide Internal GDP MD Auditor*
- *Internal audit and management review support*

Stage 5- Audit & Review

- *Perform pre-compliance audit and corrective action advice.*
- *Assist the QMR to close out any non-conformances raised by CAB*
