

ISO/IEC 17025 Consultancy Approach

Stage 1- Gap Analysis

Review the existing client current practice against ISO/IEC 17025 Requirements.

Stage 2- Design and Development

- *Provide ISO/IEC 17025:2005 Introduction and Requirements Training*
- *Plan and development the documents that fully comply with ISO/IEC 17025 requirements*

Stage 3

- *Provide Measurement uncertainty and calibration and ISO/IEC 17025 Internal Auditor Training*

Stage 4- Review Supports

Perform pre-compliance audit and corrective action advice.

Stage 5- Close Out

Assure the Client obtain the ISO/IEC 17025 certificate and reply to Standards Malaysia audit report.
